👤Tobia x Shuyan👤

Between 13.05.2023 - 17.07.2023

Dear 淑妍,  
I hope you doing great darling.  
You know I love data and my work is data.  
So I decided to use my skills to analyze our chat.  
I hope you find it interesting. I had much fun doing that!  
I needed 1006 code lines, defined 37 functions and used a total of 489 variables.

This shows which kind of messages we sent.

You send more and shorter messages. I send less but longer messages 🤖

I love pictures, you love audios 🤖

You love Stickers 🤖

I'm more the oldschool emoji user 🙄🙄

At least I created word clouds from all our sent messages:
