

Chat Analysis

📧Tobia x Shuyan📧

Between 13.05.2023 - 01.09.2023

Dear 书言,
I hope you doing great darling.
You know I love data and my work is data.
So I decided to use my skills to analyze our chat.
I hope you find it interesting. I had much fun doing that!
I needed 1862 code lines, defined 46 functions and used a total of 607 variables.

>>> Chat-Analysis Results: Tobia and Shuyan <<<

from her:44

112 in a row daily written! From 13.05.2023 to 01.09.2023 📅

This shows which kind of messages we sent.

You send more and shorter messages. I send less but longer messages 🤔

I love pictures, you love audios 🤔

You love Stickers 🤔

I'm more the oldschool emoji user 🤔🤔

At least I created word clouds from all our sent messages:

[illegible]
